Stomping Grounds, the new full-length from Ohio-based **Circus Devils**, blasts off with a full side of **brash, catchy rock 'n' roll** featuring the vocal bravado of **Robert Pollard** at full tilt. The album's flipside detours into more **psychedelic territory**, offering a mixture of weird and pretty vignettes.

Themes include the wasteland of regimented work-ruled living, sexually active geezers, lost girls, sick doctors and impressionistic recollections of the stomping grounds of boyhood. The album closes with the standout track "Sunflower Wildman (Remember Him?)," an **anthemic prog-rock story song** about a shut-in with dementia who chases boys away from his sunflower-choked yard.

Stomping Grounds is high listening adventure, more exciting than 90% of the movies you will see this year.
